Social-Emotional Learning Virtual Parent Series

Over the past year, our children have experienced an array of emotions due to the challenges and changes that have resulted from COVID-19. Social-emotional learning (SEL) offers a means of helping children cope with these emotions, express their feelings, and connect with others. Please join us for a three-part, parent and caregiver series for supporting the social-emotional needs of children during this unprecedented time.

Presenters

Elizabeth Gianulis
Director of MTSS

Leticia Enriquez
District Social Worker

Sonia Godoy
District Social Worker
